

15-PASSENGER VAN SAFETY

CONSUMER ADVISORY

Coaching the Van Driver Course

Many organizations mistakenly assume that van driving is no different than driving a personal car, and they expect their employees (or volunteers) to assume van-driving responsibilities without any training. The fact is, most commercial vans are very different than passenger cars -- they are bigger, heavier, have large blind spots and require longer following and stopping distances. Training drivers to compensate for these differences can help keep them on the road and on the job. Coaching the Van Driver is a comprehensive program that meets the needs of your organization. This is a 4 hour course.

**This course does not include behind-the-wheel training.*
